

WILLOW TREE

NURSING & REHABILITATION CENTER

is celebrating

NATIONAL REHABILITATION WEEK

- Rehabilitation is a medical specialty which helps restore people affected by potentially disabling disease or traumatic injury to good health and functional, productive lives and also helps minimize physical or cognitive disabilities.
- Most Americans will require at least one rehabilitation service at some point in their lives.
- Rehabilitation is an integral part of healthcare and a tremendous component in providing patients with positive outcomes.
- Rehabilitation is individualized so every patient can progress at his or her own ability level.
- Rehabilitation can lengthen life, improve the quality of life and reduce subsequent illness.

Willow Tree Nursing & Rehabilitation Center is educating people about the benefits and impact of rehabilitation; developing programs which aim to increase opportunities for our community and help them to live up to their fullest potential through rehabilitation.
